EDUCATION

Holy Angel University — Angeles City, Philippines
Bachelor of Science in Information Technology (Specialization in Web Development) — 2023 – 2026

- Dean's Lister, College of Information and Communications Technology (2024)

Saint Catherine's Academy — Porac, Pampanga, Philippines
Senior High School Diploma in STEM — 2017 – 2023

EXPERIENCE

IT Support Intern — Jul. 2026 – Oct. 2026
Clark Outsourcing – Information Systems Department (486-hour OJT) — Clark Freeport Zone, Pampanga

- Built an internal web tool for the intern team that organized Wi-Fi voucher distribution, classified accounts by site responsibility, a guide tag formats, and kept a searchable history of solved issues for faster troubleshooting.
- Resolved daily support tickets for network, VPN, software, and peripheral issues for onsite and work-from-home staff across two office sites.
- Deployed and maintained NUC devices and workstations (Windows 11 setup, faulty RAM repairs), prepared equipment for work-from-home transitions, and crimped and replaced Ethernet cables.

PROJECTS

Barbershop Website | *HTML5, TailwindCSS, JavaScript, Firebase, GA4* — Git | Live — Nov. 22, 2025 – Mar. 23, 2026
A responsive static website for Charlie's Barber & Salon in Angeles City, Pampanga.

- Helped the shop appear on the first page of Google Search local results by adding basic SEO practices and JSON-LD schemas.
- Added secure user login support using Firebase Auth and set up Google Analytics (GA4) tag tracking to monitor users preference.

Simple-Miniplayer | *JavaScript, HTML5, CSS3* — Git | Live — Mar. 30, 2026 – Present
A browser extension that plays web videos and social media clips in a floating Picture-in-Picture window with subtitle support.

- Created a floating, resizable player window by leveraging the modern browser Document Picture-in-Picture API.
- Added basic playback control, volume state syncing, and custom rolling subtitle support.

Yomi (読み) | *Flutter, Dart, PHP, MySQL* — Git | Live — Mar. 12, 2026 – Mar. 24, 2026
A distraction-free web novel reader with library shelf organizing.

- Built a cross-platform mobile and web reader in Flutter with custom text sizes, line heights, and layout settings.
- Created a simple PHP backend REST API and MySQL database to synchronize user libraries and reading progress across devices.

Freedom-wall | *Next.js, TypeScript, TailwindCSS, Supabase* — Git | Live — Dec. 8 – Dec. 13, 2025
An anonymous message board supporting text posts, likes, and image uploads.

- Built a responsive frontend using Next.js (App Router) and Tailwind CSS with simple type-safe routing.
- Set up real-time post updates, comment sections, and a password-protected admin moderation panel using Supabase.

HubSpot-Coffee | *HTML5, JavaScript, TailwindCSS* — Git | Live — Sep. 2, 2025 – Oct. 11, 2025
A cozy dark-themed café storefront website and mock client dashboard.

- Designed a cozy dark café theme menu with basic product search filters and an interactive shopping cart.
- Integrated an interactive Leaflet.js map centered at the café coordinates using custom dark tiles and map markers.
